PART I: General Information

A. Introduction/Background

The South Carolina Charter Schools Act of 1996 (S.C. Code Ann. § 59-40-10 *et seq.* (2006)) provides the mechanism for the design and operation of charter schools for the purposes of improving student learning, encouraging the use of a variety of productive teaching methods, establishing new forms of accountability, and creating new professional opportunities for teachers. As public schools, charter schools are nonreligious, nonhome-based, nonprofit, and nondiscriminatory.

In 2006, the South Carolina Department of Education (SCDE) received a three-year federal grant from the United States Department of Education (USED) to support the development and implementation of charter schools. The SCDE will use these funds to administer subgrants. The purpose of this subgrant program is to expand the number of high quality charter schools available to students across the state by providing financial assistance for the initial costs associated with a new charter school: planning, program design, and initial implementation.

The Charter Schools Act stipulates the manner in which a public charter school shall be funded, regulated, and governed. In order to be considered for funding, subgrant applications must demonstrate compliance with the Charter Schools Act, as set out in this RFP. The Act may be accessed at http://www.ed.sc.gov/agency/offices/ssys/alternative_education/charter_schools/.

B. Definitions of Terms Used

Approved Charter constitutes an agreement and the terms must be the terms of a contract between the charter school and the sponsor.

Authorizer is either the South Carolina Public Charter School District Board of Trustees or the local school board of trustees in which the charter school is to be located, as provided by law, from which the charter school applicant requested its charter and which granted approval for the charter school's existence.

Benchmark is a standard that must be met in order to move to the next phase of grant funds. Examples of benchmarks that must be achieved include the following:

- 1) a report of activities completed from the previous grant phase,
- 2) a revised budget for the next grant phase,
- 3) a signed charter, and
- 4) a schedule for obtaining a facility.

State Charter School Advisory Committee was established by the State Board of Education to review charter school applications for compliance with established standards that reflect the requirements and intent of the charter law.

A Subgrant is a federal grant that a state agency redistributes to districts or other designated entities through a competitive grant process.

C. Eligible Applicants

An eligible applicant is any group engaged in charter school development including existing public schools or districts that have not previously received a subgrant under this program.

Eligible groups must not include current employees of the SCDE. Employees of the SCDE are not eligible to apply for this subgrant while they are employed by the SCDE.

D. Estimated Available Funds

The total amount available per grantee is \$420,000, depending on the availability of funds. The projected number of students and number of schools reaching the implementation phase will affect the amount.

E. Estimated Number, Range, and Average Size of Awards

Based on current and anticipated federal funds from the USED, approximately 10 awards will be made. The total amount available per grantee for the Planning Phase (including both initial and continued planning) is \$20,000. The total amount available per grantee for the Implementation Phase Year 1 is \$200,000, depending on available funds. The total amount available per grantee for the Implementation Phase Year 2 is \$200,000, depending on available funds.

Funds will be distributed in four phases:

Phase I: Initial Planning. The initial \$5,000 funding is contingent on documented collaboration with the sponsoring school district.

Phase II: Continued Planning. Up to \$15,000 additional funding is contingent on a charter application being recommended for approval by the State Charter School Advisory Committee.

The maximum award for the planning phases is \$20,000. A maximum period of eighteen months is allowed to complete the initial and continued planning phases.

If planning has not resulted in an approved charter by July 1, 2009 (school opening by fall 2009), the funds associated with the implementation phases will be forfeited by the grantee.

Phase III: Implementation Year 1. The funding for this phase is up to \$200,000, but no less than \$100,000. Funding is contingent on an approved charter, documented nonprofit status, and benchmark documentation. Implementation funds may be accessed up to three months prior to the opening of the charter school.

Phase IV: Implementation Year 2. The funding for this phase is up to \$200,000, but no less than \$100,000. Funding will be allocated based on student enrollment, with \$1,000 per student serving as the base amount. Depending on the availability of remaining federal grant funds, the base may be supplemented up to a maximum of \$2,000 per student.

F. Grant Funding Period

The grant funding period will be February 1, 2008, through December 31, 2010. The planning phase (initial and continued planning) may not exceed the first 18 months.

G. Statutory Requirements

- Each application must contain an appropriate GEPA statement as described on page 22 of this application.
- If an applicant believes that it is necessary for federal statutory or regulatory provisions or state or local rules generally applicable to public schools should be waived for the successful operation of the charter school, a request and justification for waivers must be submitted as part of the application. The applicant would have to identify the specific section of federal law for which they were asking a waiver from.
- Each application must contain a description of how the funds will be used, including a description of how such funds will be used in conjunction with other federal programs administered by the USED.
- Each application must contain an assurance that the eligible applicant will annually provide the USED and the SCDE such information as may be required to determine if the charter school is making satisfactory progress toward achieving its stated objectives.
- Each application must contain an assurance that the eligible applicant will cooperate with the USED and the SCDE in evaluating the proposed program.
- Each application must contain a description of how the local educational agency in which the proposed charter school will be located will comply with sections 613(a)(5) and 613(e)(1)(B) of the Individuals with Disabilities Education Act in the operation of the said charter school.

H. Authorized Activities

Grant funds may be used to support the following activities:

Initial planning and design activities of the educational program may include, but are not limited to,

- the refinement of the desired educational outcomes and of the methods for assessing progress toward achieving those outcomes, and
- professional development for teachers who will work in the school.

Implementation activities of the public charter school may include, but are not limited to,

- dissemination of information to the community about the school,
- acquisition of equipment and educational materials and supplies,
- acquisition or development of curriculum materials, and
- other initial costs that cannot be funded by state or local sources.

I. Unauthorized Activities

Funds may *not* be used for

- the acquisition or major renovation of a facility,
- the acquisition of any vehicle, or
- recurring operational expenses such as teacher or administrator salaries, facility leasing, utilities, and transportation of students.

J. Supplement, Not Supplant

Funds made available for charter school activities under this subgrant shall supplement and not supplant other state or local public funds. If current expenditures are being paid from state or local public funds, you may not start paying for those expenditures from these funds.

K. Technical Assistance Sessions for Applicants

An optional technical assistance session will be held November 7, 2007, from 10:00 a.m. until 3:00 p.m., in the River Center Building at Saluda Shoals Park in Columbia. Attendance is not required for submitting an application.

Registration is free. Applicants may register by contacting Rebecca Cupstid at 803-734-8266 or by e-mail at rcupstid@ed.sc.gov. Information about the technical assistance session can be accessed at http://www.ed.sc.gov/agency/offices/ssys/alternative_education/charter_schools/.

L. Required Reporting

Grantees must provide benchmark information and receive approval from the SCDE Program Officer prior to moving to each phase of funding. To move from the planning phase to the first year of implementation, grantees must provide a signed charter approved by the authorizer, a revised implementation budget worksheet, an updated school data sheet, a report of major grant activities, and a list of negotiated services with the local district.

To move to the second year of implementation, grantees must provide a copy of the annual report submitted to the local school district as per the charter contract, a revised budget worksheet, an updated school data sheet, a report of

major grant activities, an inventory of assets purchased with implementation funds, and governing board documentation.

Grantees are required to submit a final report to the SCDE Program Officer pertaining to the major grant activities at the end of the grant period. This report must be submitted no later than January 31, 2011.

M. Review and Selection Process

Reviewers consisting of educators with experience from school administration, school board service, and charter school development, will read and score all eligible applications. SCDE employees will not serve as reviewers, but the SCDE Program Officer will vet all applications for compliance with these guidelines. Any application not in compliance with these guidelines will not be forwarded for review.

A panel of two readers will score each application using the Scoring Rubric included in this RFP. If initial scores vary by more than 20 points, a third reader will read and score the application. The panel will then discuss the merits of the application together and may adjust their individual scores based on the discussion. The final score will be the average of the two scores.

The maximum number of points available for each application is 145. Applications will be rank-ordered by final scores and awards will be made, starting with the highest score, until all allocated funds are expended. An application must score at least 100 points to be considered for funding.

N. Appeals Process

Scores may not be appealed. An unfunded applicant may inquire as to whether or not the application process was followed.

An applicant who has submitted a proposal that the SCDE does not fund has five calendar days after receiving notification that the proposal is not funded to request a review of the process. The request for review must be directed to the State Superintendent of Education and must state the reasons for the request. The State Superintendent will ask the appropriate deputy superintendent to investigate. After reviewing the process, the deputy superintendent will notify the applicant in writing as to whether the application process was followed. There will be no further appeal of the deputy superintendent's decision.

- Are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated above.
- Applicant has not, within a three-year period preceding this application, had one or more contracts terminated for default by any public (Federal, state, or local) entity.

K. Audits

- Entities expending \$500,000 or more in federal awards:

The submission deadline for A-133 audits is nine months after the entity's fiscal year-end. A grantee that passes through funds to subrecipients has the responsibility of ensuring that federal awards are used for authorized purposes in compliance with federal program laws, federal and state regulations, and grant agreements. The director of the OMB, who will review this amount every two years, has the option of revising the threshold upward.
- Entities expending less than \$500,000 in federal awards:
Entities that expend less than \$500,000 in a fiscal year in federal awards are exempt from the audit requirements in the Single Audit Act and Circular A-133. However, such entities are not exempt from other federal requirements (including those to maintain records) concerning federal awards provided to the entity. The entity's records must be available for review or audit by the SCDE and appropriate officials of federal agencies, pass-through entities, and the General Accounting Office (GAO).

L. Records. The grantee shall retain grant records, including financial records and supporting documentation, for a minimum of three (3) years after the termination date of the grant.

M. Reduction in Budgets and Negotiations. The SCDE reserves the right to negotiate budgets with potential grantees. The SCDE may, in its sole discretion, determine that a proposed budget is excessive and may negotiate a lower budget with the potential grantee. The grantee may at that time negotiate or withdraw its proposal. In addition, the SCDE may desire to fund a project but not at the level proposed. In that case the SCDE shall notify the potential grantee of the amount that can be funded, and the grantee and the SCDE shall negotiate a modification in the proposal to accommodate the lower budget. All final decisions are that of the SCDE.

N. Amendments to Grants. Amendments are permitted upon the mutual agreement of the parties and will become effective when specified in writing and signed by both parties.

GEPA: Notice to All Applicants

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps

to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is **1890-0007**. The time required to complete this information collection is estimated to average 1.5 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** Director, Grants Policy and Oversight Staff, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4250.
